
Letter of Reasoning & First Policy Statement

Honoured Reader

I make this statement and decision for my Company AZURIDIAN,
And state my wish to express my reasonings as to what lead to the decision I have made,

Life has never been extremely kind to me, in my youth I was abused, and I had reluctantly few friends,

When I was 16, my grandfather was murdered.

He was a Great man; he had built houses for people, he built his own magnificent home, and worked in the building of a Church and School.

He gave so much to the people around him.

I loved him and looked up to him, I was so happy when I got to visit and stay with him.

In comparison,

My mother & father were very poor people and they feuded with my grandfather.

After his death, my grandfather left me and my brother a farm.

But it got sold by the executors of his will, I believe due to fears for the violence on farms in South Africa'

Or the actions of the government of South Africa in taking land from Land owners and farmers.

Letter of Reasoning & First Policy Statement

After some years I have found solace in Reading and in Admiring & studying art. It has taken a lot of work and time to collect these articles, years that I have spent collecting. This past year, I have started sharing my work on social media, I reached 100 followers and then 1000, I was encouraged, that my work truly meant something to people out there.

Then on Monday, October 24, 2022, AZURIDIAN was incorporated.

I have written to companies, asking for aid in the growth and development of my company. I have created and worked on a website, and I have worked dutifully to do my best to further my work in preserving art & books.

Living in South Africa has been difficult, The amount of crime, the breakage of infrastructure, the lack of stability and the power outages; disregard for nature and property, Corruption and Hate coupled with racism towards people, and so forth.

This isn't a place I wish to be a part of, I do not want to contribute to a corrupt and violent system of governance.

Nor do I wish to play a part in the snake-pit of corrupt & hateful political parties that I see around me.

Letter of Reasoning & First Policy Statement

And for this reason, dearest reader & whomever it may concern.

On today: 22/11/2022

I hereby wish to declare the founding of AZURIDIAN as a Micronation.

I have considered the implications of this thoroughly, come what may.
Media Attention, Public love, Scepticism or Hate;
Note that, I will always have love towards the people of South Africa,
And the beauty of the nature and cultures within it.

But I will not have love towards the wrongdoings and violence in its government.

I believe this is what I need to do, to make my statement in my values to you, dear reader.

I wish to express gratitude to everyone reading this furthermore,
I hope that my actions will inspire people to join and support AZURIDIAN.

To Everyone reading this,

We are ever dedicated to Artists, to Writers.

To scholars and engineers, doctors, scientists and inventors

To everyone that wishes for peace in a violent world.
